Issue No	Moddule Name	Issue name	Short description	Expected Results	Actual Results	-	Level of issue	Tester Name												
1	Admin Site	Marchent logo	Show the marchent logo properly		Here the marchent logo are missing			Akash												
2	Admin Site	Different price value with same card name	When we create a card under a marchent there are can be different prices card in similar card name	There are should have a option to create different values card under a similar name of a card	Here we can see that, we can create a single amount of a card under a single name card	https://ibb.co/MC2vmTm	Major	Akash												
3	Admin Site		There should have a option to choose selected outlets of a marchent when we create a gift cerd of a marchent				Major	Akash												
4	Admin Site > Assign a card option	auto page load	assign a card page should be auto reloaded	when we assign a card the page should be auto reload & show the result	The page does not auto reload after assign a card		Major	Akash												
5	Admin Site > Assign a card option		Check Assign gift card mobile number valid or not			https://bb.co/p170PCP	Major	Akash												
6	Marchent		The gift card amount should be less or egal then the shopping amount		here we can see that the charging			Akash												
7	Admin> Assign a card		e The new assign card page logo file type					Akash												
8	Admin >Assign card page>Golp credit payment	golp credit card balance	Golp credit card balance option is not updated, here only the balance is debit not to credit.	When we create card & pay for the activation then the balance was debit from the golp credit card but when we delete card which is not useable then the card paid amount was not credit on the golp credit card	Here only the debit the balance is working but the credit the balance is not working		Major	Akasih												
9			When we input a wrong issue or wrong explry date if does not show any error or invalid input				Major	Akasih												
10	Admin > Assign card page	Count button	ain admmin panel assign gift card page the count button is not working	When we aggain multiple card in same number then it will be count the card no on the same mobile number	Here we can see that if we assign multiple card in the same number every time it shows a new field, not increse the count no		Medium	Akash												
11	Admin >Assign card page	Section for the assign card		Here is no section for the assign card		https://ibb.com/2282P7	Suggestion	Akash												
13	Home Page	Page load slow	It takes time to load the webpage specially on mobile	Page load should be fast	Page load is slow		Major	Akash												
14	Home Page	Footer Design	Footer Design is not good		There is a blank space below footer			Akash												
15	Customer Panel  Customer Panel	My profile Login with mobile	Invalid email accept	valid email with proper format should accept Mobile number should not accept any letter or character		https://bb.co/5shk64k	Medium Major	Akash												
16	Customer Panel  Admin Panel	Login with mobile number  Edit New gift Information		letter or character Information of new gifts can be edited and update successfully message shown	character Information of new gifts can't be edited and unauthorized access message	https://bb.co/ZMmHgbN	Major	Akash Akash												
18	Admin Panel>Assign a card option	Expiry date of new assignment	Expiry date accept past date	shown  Expiry date will be advanced from the effective date, should not accept past date			Major	Akash												
19	Admin Panel-Assign a card option	Pay Later Option	Pay Later option doesn't display the new assignment in the list		If we click on pay later button the new assignment variab and doesn't show in the list			Akash												
20	Customer Panel-Merchant	Category	Others should be at the below of Category list					Akash
